## UNIQUE TRIMS AND SHAPES IN PREFINISHED ALUMINUM

**GORDON**  
INCORPORATED

BUY ONLINE ▶

Aluminum Extrusions are 6063-T52 per ASTM B 221 and ASTM B 221 Metric. The finish is clear anodized 200-R1, which is corrosion resistant. Clear Anodized is a suitable finish for bonding with drywall compound. Clear Anodized can be installed as the final finish or can be used as a primer for field painting.

## SERIES 960 SPECIAL SHAPES

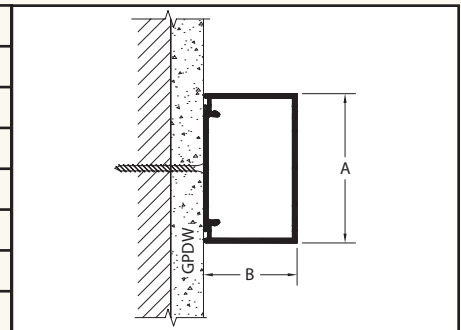

PART NUMBER	
961-HT-12	

HANGING TRACK transition at the ceiling. Also see 907.

PART NUMBER	
962-EC-200	

EDGE TRIM step transition from drywall to acoustical ceiling.
