

# FLUSH TEGULAR LAY-IN METAL PANELS

- 2' x 2' modular lay-in aluminum panel installs onto a 15/16" face tee bar suspension system. Panel face installs flush with the face of the suspension system, creating a smooth monolithic plane.
- Available in 0.032" white and silver polyester paint finish. GreenWood™ wood grain films can also be applied to panels. Custom paint colors can be created.
- Perforated or non-perforated
- Perforated metal with acoustical media = NRC up to 0.90
- Non-perforated system will meet ASTM E-84 requirement.
- Contributes to LEED®<sup>1</sup> Certification
