BUY ONLINE ▶

PLASTER, DRYWALL & ACOUSTICAL

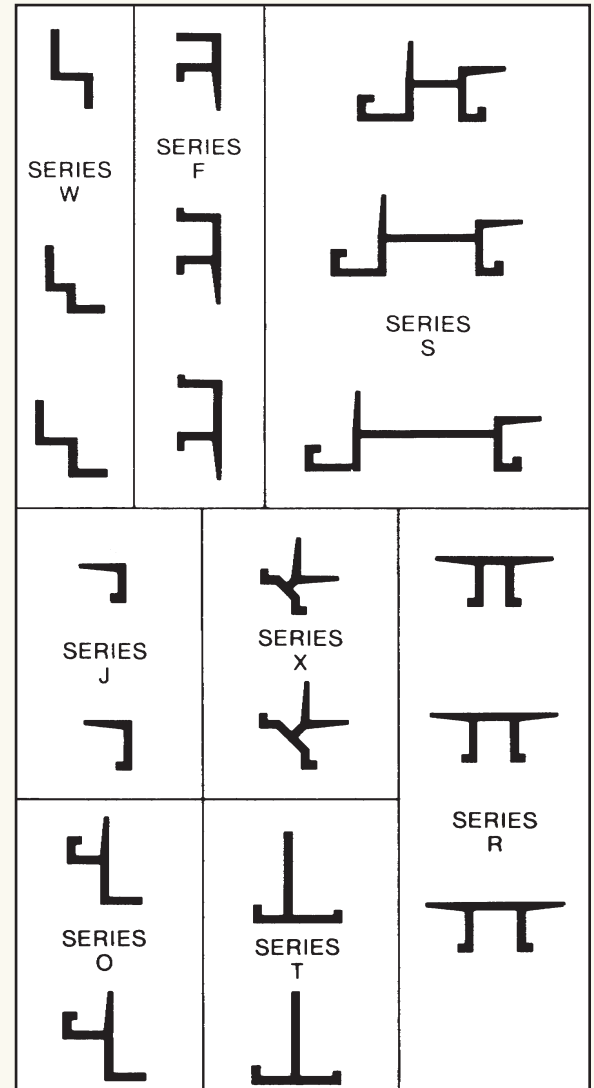

FINAL FORMS II can be applied both vertically and horizontally behind plaster, drywall, or acoustical tile to develop reveals, trims, screeds, and corners.

FINAL FORMS II are prefinished extruded aluminum plaster and drywall trims, 6063 alloy, temper T-5 having a tensile strength of 31 KSI.

- REVEAL TRIMS
- CORNER TRIMS
- SCREEDS
- EDGE "J" TRIMS
- "F" TRIMS

Use standard drywall and plaster techniques to install Final Forms II. Trims are preapplied to conceal attachment flanges.

Call on us to design and fabricate custom shapes for your specific needs.

FINAL FORMS II FABRICATION GUIDE

FACTORY CURVING AVAILABLE

COATINGS

CLEAR ANODIZED is the standard finish for Final Forms II and is supplied if no finish is specified. Custom color anodizing is also available. Anodized finishes are suitable for exterior applications.

PAINTING is available to match your color specification or in any of our standard interior grade colors (white, bronze, black, etc.) Customized color matching requires a color sample or specification, additional lead time and a minimum order. Exterior finishes are available.
