BEAM MATE

Beam Mate suspension systems provide visual definition within open plenum spaces without interruption to fire protection and HVAC devices.

**DESIGN ELEMENTS**

- Extruded aluminum ensures crisp, consistently straight appearance compared to roll-formed products
- Module sizes per your specification provides flexibility for your design
- Installs easily like most suspension systems
- Incorporate lay-in perforated metal or acrylic panels for a decorative effect
- Multiple perimeter options
- Track lighting available
- Factory finished
- Corners are factory mitered and welded
- Custom beam profiles can be created

**STANDARD PROFILES**
• Extruded aluminum profiles ensure crisp, consistently straight appearance compared to roll-formed products
• Profiles available for direct or indirect lighting
• LB-2X4R is a factory UL lighted system with optional accessible panels
• Optional perimeter, panels, and end caps available

Pictured at right and bottom photo, Contura perimeter trim provides a handsome edge detail for a floating Beam Mate installation.

Shown below, Contura with a curved channel provides a finished beam appearance.
CUSTOM FABRICATION

The project shown on combines lay-in acrylic panels, three different beam sizes, Beam Mate 33, 22, and 12, that are all mitered into an intersection. All components were factory fabricated.
**BOLD BEAM**

- Formed from Aluminum and Stainless Steel
- Typical Beam Sizes:
  - 5” wide x 5” (or less) high
  - 6” wide x 8” (or less) high
  - 8” wide x 8” (or less) high
  - 10” wide x 10” (or less) high
  - 12” wide x 12” (or less) high
  - Call us for custom sizes
- Multiple sizes can be included in one system
- Finishes: Painted and Mechanical
- Adjustable hanger location
- Penetrations in beam face
  - Sprinklers
  - Air Slots
  - Perforations
  - Lighting

GREEN BY DESIGN

• Products contribute to LEED® certification
  • Aluminum Extrusions - 38.1% recycled
    o 29.4% pre-consumer content
    o 8.7% post-consumer content
  • Aluminum Coil - 28% recycled
    o 22% pre-consumer content
    o 6% post-consumer content
• In-House Finishes
  • Biodegradable pre-treatment (No phosphates)
  • No hazardous waste
  • No VOCs
  • No heavy metals
• Reference our sustainable products brochure and website for more information. Recycled content values are subject to change. Contact us for accurate values or job specific requirements.

FINISHES

• Powder Coats
  o Standard
  o ACROGUARD® Enhanced Durability
  o ACROGUARD® Textured
  o ACROGUARD®-UVX Durable Exterior
  o ACROSTAT™ Antimicrobial
• Acrylic Water Base “Wet” Paints
  o Standard
  o Custom Matched
  o Textured
• GreenWood™ - Wood Grain Films
  o Interior
  o Exterior
• PVDF
  o 50% Resin Based Coatings
  o 70% High Performance Resin Based Coatings
