

VOC Emission Test Certificate (CDPH Std. Method V 1.2)
Manufacturer's Declaration of Conformity
MULLION MATE[®] Product Line (All Varieties and Sizes)

Product Covered by This Declaration:

This declaration applies to the complete MULLION MATE[®] product family, including all varieties, dimensions, finishes, assemblies, and size configurations manufactured and supplied by Gordon, Inc.

1. Purpose of Declaration

Gordon's Self-Declaration is issued to affirm that the MULLION MATE[®] product line conforms to the applicable requirements of ISO 14021 (Environmental Labels and Declarations – Self-Declared Environmental Claims) and CDPH Standard Method v1.2 (VOC emissions testing for building products), as applicable to the attributes being claimed. This declaration also follows the general structure recommended by the U.S. Consumer Product Safety Commission's (CPSC) sample "General Certificate of Conformity."

2. Description of the Product

MULLION MATE[®] is an extruded aluminum partition gap closure assembly offered in multiple configurations. All product variations share the same material composition families and manufacturing processes as the tested representative samples.

3. Applicable Standards and Requirements

ISO 14021:

- Recycled content claims: The aluminum is made from 60% pre-consumer, 10% post-consumer and 30% primary aluminum.
- Recyclability statements: The aluminum portion of the Mullion Mate[®] assemblies are 100% recyclable.
- Environmental claim definitions:
 - $\leq \frac{1}{2}$ Chronic REL - chemical emission concentration is less than half of the long-term health-based reference limit.
 - VOC – Volatile organic compounds are chemicals that evolve from other compounds as a by-product of some reaction or as a substance that is inherently volatile. These compounds can be responsible for health problem or environmental degradation.
 - Material Health Threshold – Maximum allowed chemical concentration or emission level in a material to ensure safety based on toxicological and regulatory criteria.

CDPH Standard Method v1.2:

- VOC emissions compliance: $\leq 9.0 \mu\text{g}/\text{m}^3$ (COMPLIANT)
- Material health thresholds: $\leq \frac{1}{2}$ Chronic REL

4. Manufacturing Location(s)

Gordon, Inc.
5023 Hazel Jones Road
Bossier City, LA 71111

5. Testing & Evaluation

Testing Laboratory:

Berkeley Analytical
815 Harbour Way South
Richmond, CA 94804

ISO 17025 Accreditation: Yes

Test Report: 1560-001-01A-Nov1925

Certificate Numbers: 251119-03, 251119-04

6. Basis for Self-Declaration

The manufacturer confirms product consistency, material conformity, and compliance with referenced standards.

7. Authorized Representative Statement

I hereby declare, on behalf of Gordon, Inc., that all MULLION MATE® products comply with the applicable standards referenced.
